

## Hose Data Sheet

**SEA-tech** Placement Hoses are designed to deliver all types of concrete products at high pressure safely and effectively. The operation is clean and quick to assemble from the pump to the delivery point. Our light weight wear resistant compound gives a longer life than many standard rubber hoses, all our hardened coupling are securely factory fitted and tested. The hoses are easy to clean by reverse pumping together with SEA developed Hose Cleanout Ball together this will give a long and productive life.

**1. Temperature range:** -40°C to +80°C

**2. Material:**

Tube: Synthetic rubber compound

Reinforcement: 2 or 4 piles of steel wire cord

Coupler: Steel

**3.Data List:**

Size	ID mm	OD mm	piles of steel wire cord	Working Pressure	Burst Pressure	Vacuum	Weight
3.5"	89	113	2	100bar (1200psi)	240bar (3500psi)	0.8bar	7kg/m
4"	100	128	2/4	100bar (1200psi)	240bar (3500psi)	0.8bar	8.5kg/m
5"	125	154	2/4	100bar (1200psi)	240bar (3500psi)	0.8bar	11kg/m
6"	152	181	2/4	100bar (1200psi)	240bar (3500psi)	0.8bar	15kg/m
